CONTENTS

A technique for efficient sorting of live termites from debris. Barbara L. Thorne and Nancy L. Breisch ................................................................. 1

A revision of the genus Dieropsis Gahan (Coleoptera: Cleridae: Clerinae). Jonathan Mawdsley ................................................................. 5

Modes and frequencies of colonization and its relation to extinctions, habitat and seasonality in the social spider Anelosimus eximius in the Amazon (Araneidae: Theridiidae). Eduardo M. Venticinque, Harold G. Fowler and Carlos A. Silva ............................................................................ 35

Two polygyne overwintered nests of Vespa vulgaris from California. Francis L. Ramin and Donald G. Miller ............................................... 43

Factors controlling dealation and egg laying in virgin queens of the Argentine ant Linepithema humile (Mayr) (=Iridomyrmex humilis). Luc Passera and Serge Aron ................................................................. 51

Foraging and nesting ecology of a Costa Rican leaf-cutting ant, Acromyrmex volcanus. James K. Wetterer ........................................... 65

A new species of the genus Strotocera Schenkling (Coleoptera: Cleridae: Tillinae) from the Baltic Amber. Jonathan Mawdsley ..................... 77

Queen polymorphism in an Australian weaver ant, Polyrachis cf. doddi. Jurgen Heinze and Bert Holldobler ..................................................... 83

Natural history and behavior of two species of Macrohaliata (Coleoptera: Chrysomelidae). W. Eberhard, R. Achoy, M. C. Marin and J. Ugalde ...... 93
CAMBRIDGE ENTOMOLOGICAL CLUB
OFFICERS FOR 1992-1993

President ............................................ GARY ALPERT
Vice-President ....................................... DAVID G. FURTH
Secretary .............................................. JONATHAN MAWDSLEY
Treasurer ............................................ JOHN SHETTERLY
Executive Committee ................................. ED ARMSTRONG

EDITORIAL BOARD OF PSYCHE

D. G. FURTH (Editor), Department of Entomology, Museum of Comparative Zoology, Harvard University
F. M. CARPENTER (Honorary Editor), Professor Emeritus, Department of Fossil Insects, Museum of Comparative Zoology, Harvard University
J. M. CARPENTER (Associate Editor), Department of Entomology, American Museum of Natural History (New York)
D. S. CHANDLER (Associate Editor), Department of Entomology, University of New Hampshire
S. P. COVER (Associate Editor), Department of Entomology, Museum of Comparative Zoology, Harvard University
B. L. THORNE (Associate Editor), Department of Entomology, University of Maryland
J. F. A TRANIELLO (Associate Editor), Department of Biological Sciences, Boston University
D. WAGNER (Associate Editor), Department of Ecology and Evolutionary Biology, University of Connecticut
W. L. BROWN, Jr. (Editorial Advisor), Department of Entomology, Cornell University
B. K. HOLLODBLER (Editorial Advisor), Zoologisches Institut der Universität, Würzburg, Germany
H. W. LEVI (Editorial Advisor), Professor Emeritus, Department of Invertebrate Zoology, Museum of Comparative Zoology, Harvard University
E. O. WILSON (Editorial Advisor), Department of Entomology, Museum of Comparative Zoology, Harvard University
T. RIVNAY (Editorial Assistant), Department of Entomology, Museum of Comparative Zoology, Harvard University

PSYCHE is published quarterly by the Cambridge Entomological Club. Subscription price, per year, payable in advance: $30 domestic, and $35 foreign.
Checks and remittances should be addressed to Treasurer, Cambridge Entomological Club, 26 Oxford St., Cambridge, MA 02138 USA.
Orders for missing numbers, notices of change of address, etc., should be sent to the Editorial Office of Psyche, 26 Oxford Street, Cambridge, MA 02138 USA. For previous volumes, see notice on inside of back cover.

Psyche, vol. 99, no. 4, for 1992, was mailed 2 June 1993
CAMBRIDGE ENTOMOLOGICAL CLUB

A regular meeting of the Club is held on the second Tuesday of each month October through May at 7:30 p.m. in the Main Lecture Hall and/or Room 154 of the Biological Laboratories, Divinity Avenue, Cambridge. Entomologists visiting the vicinity are cordially invited to attend.

BACK VOLUMES OF PSYCHE

Requests for information about back volumes of Psyche should be sent directly to the managing editor.

IMPORTANT NOTICE TO CONTRIBUTORS

Manuscripts intended for publication should be addressed to Dr. David G. Furth, Museum of Comparative Zoology, Harvard University, Cambridge, MA 02138 USA.

Authors are required to bear part of the printing costs, at the rate of $31.00 per printed page. The actual cost of preparing cuts for all illustrations must be borne by the contributors: the cost for full page plates from line drawings is ordinarily $10.00 each, and for full page half-tones, $12.00 each; smaller sizes in proportion. There is ordinarily no additional charge for setting tables of less than six columns; for tables of six or more columns the cost is $25.00 per page.
FOR SALE

REPRINTS OF ARTICLES BY W. M. WHEELER

The Cambridge Entomological Club has for sale numerous reprints of Dr. Wheeler's articles (about 250) that were in his office at Harvard University at the time of his death in 1937. The cost of these reprints is 5¢ a page, including postage; for orders under $5 there will be an additional handling charge of 50¢. A list of the reprints is available for $1.00 from the W. M. Wheeler Reprint Committee, Cambridge Entomological Club, 26 Oxford Street, Cambridge, MA 02138. Checks should be made payable to the Cambridge Entomological Club.

1992–1993 CLUB MEETING PROGRAM

October 13  James Lloyd (The University of Florida)
"On Lightningbugs"

November 10 William L. Krinsky (Yale University)
"Forensic Entomology: Are Maggots to be Trusted?"

December 15 Lou Roth (Harvard University)
"The Golden Years of Entomological Research (BR) for the Military (Personal Reminiscenses, 1942–1974)"

January 12 Rich Pollack (Harvard University)
"Risk of Acquiring Lyme Disease"

February 9 Quentin Wheeler (Cornell University)
"The Role of Systematics in Biodiversity Studies"

March 9 Ring Carde (University of Massachusetts)
"Strategies and Constraints to Moths Finding a Distant Source of Pheromone in Wind"

April 13 Carl Rettemeyer (Museum of Natural History, The University of Connecticut)
"Behavior of Army Ants and Their Guests"

May 11 Gary Alpert (Harvard University)
"Exploring Ant Biodiversity in Madagascar"
